

AMPLIFY YOUR IMPACT

WANT TO DEVELOP
YOUR ENTERPRISE
OR TAKE YOUR
ORGANISATION TO
THE NEXT LEVEL?

WE WILL HELP YOU
GET THERE.

Social Impact Hub can help you take your social enterprise or not-for-profit to the next level through our bespoke consulting services and our vibrant community.

Whatever the challenge or task, big or small, we can work closely with you to map out a framework to help you reach your intended destination.

We work with everyone focused on impact, from new social start-ups to established not-for-profits and social enterprises, delivering relevant, practical solutions to road blocks that may be stopping your organisation from reaching its full potential.

Our collaborative and tailored approach means we often work with field experts to ensure we provide the best solution for every project.

Let us help you achieve your goals and propel your organisation on to the next stage of its journey.

WHAT OUR CLIENTS SAY ABOUT US

PROMISE OR PAY

Jay Boolkin

"The team helped me with my business plan, competitor analysis and to identify potential partners to help Promise or Pay scale.

The students were across my enterprise from the get-go and I really valued their ability to listen to my needs throughout the project.

Being located at the Social Impact Hub was truly motivating and allowed regular interaction with the team – it was great to witness the team's enthusiasm, passion and hard work.

Promise or Pay has now secured social investment and is excited about the next stage in our growth!"

FIGHTING CHANCE

Laura O'Reilly

"The Theory of Change framework the Social Impact Hub team developed for us gets right to the heart of what we are aiming to do, and will underpin Fighting Chance's growth in the next few years by keeping us focused on the impact we are trying to have.

After several years struggling to have breakthrough in this space, having this framework in place is absolutely critical for non-profits like Fighting Chance."

DIGITAL STORYTELLERS

Mikey Leung

"We reached out to the Social Impact Hub after seeing their groundbreaking work with the Field Guide to Impact Investing, as we were seeking impact experts to help us further our journey as a social enterprise.

The collective brain power of the team helped us crystallise our thinking into our awesome theory of change. We're very proud showing it off to our fellow social impact geeks!

The culture building workshop was a great reflection on our strengths and weaknesses as an organisation, and has given us the language we need to move forward and engage others in our social enterprise journey."
